Vertera Gel Forte

Strong immunity, elimination of deficient conditions and body cleansing.

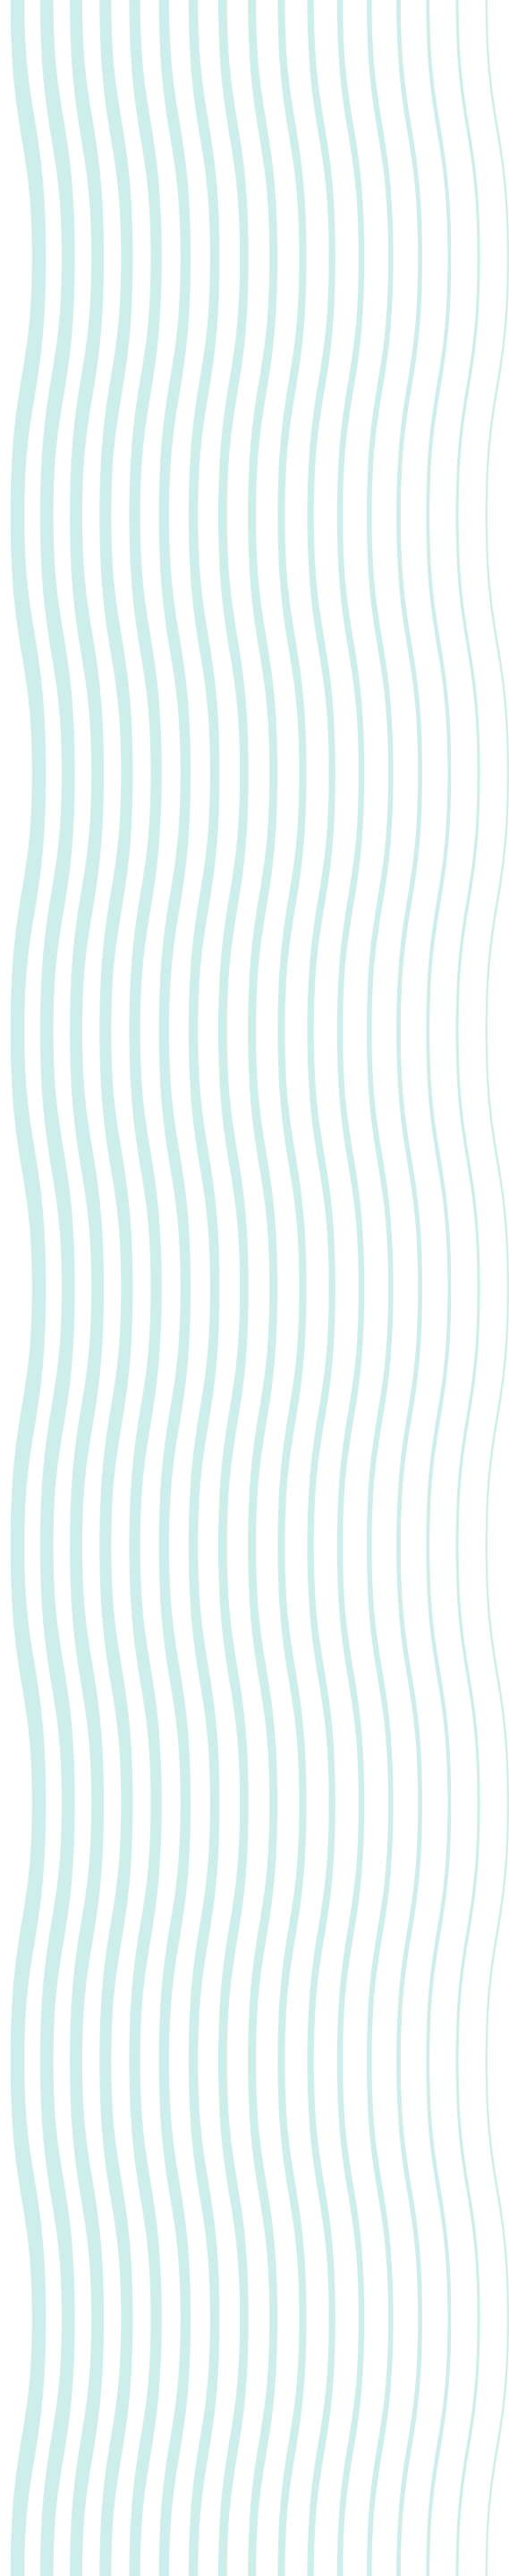

We pay health for the blessings of civilization

- Polluted air
- Poorly purified water
- Chemicals and antibiotics in food
- Unhealthy lifestyle

The result is internal intoxication and a deficiency of useful substances. This is the cause of 90% of all diseases of a modern person.

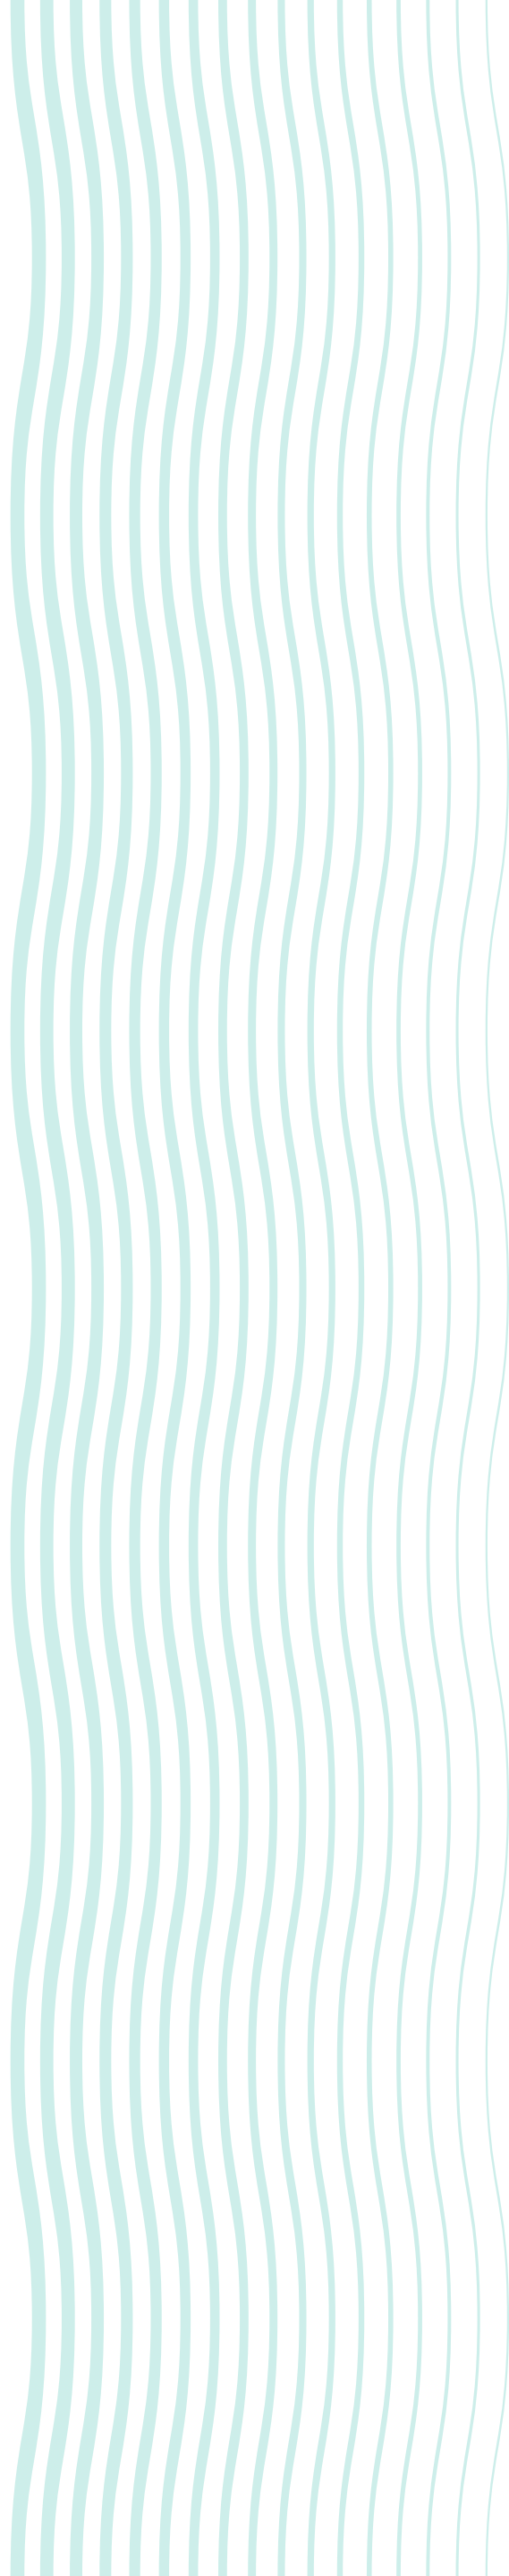

Our body needs help!

Even if we haven't noticed it yet.
Can it be different?

Yes, if you use special products that help to

- boost the immune system that protects you from diseases
- cleanse the body at the cellular level regularly
- saturate it with useful substances

Laminaria cell gel

It is supplemented with bioactive components to boost your immunity, detoxicate and rejuvenate your body.

VERTERA

Fortified formula to enhance your health!

Laminaria

Fucus

Dihydroquercetin

Laminaria

- It is rich in organic iodine
- Unique salt composition
- Over 100 nutrients for your health

Polysaccharides

- laminarine and mannitol
- algin
- fucoidan

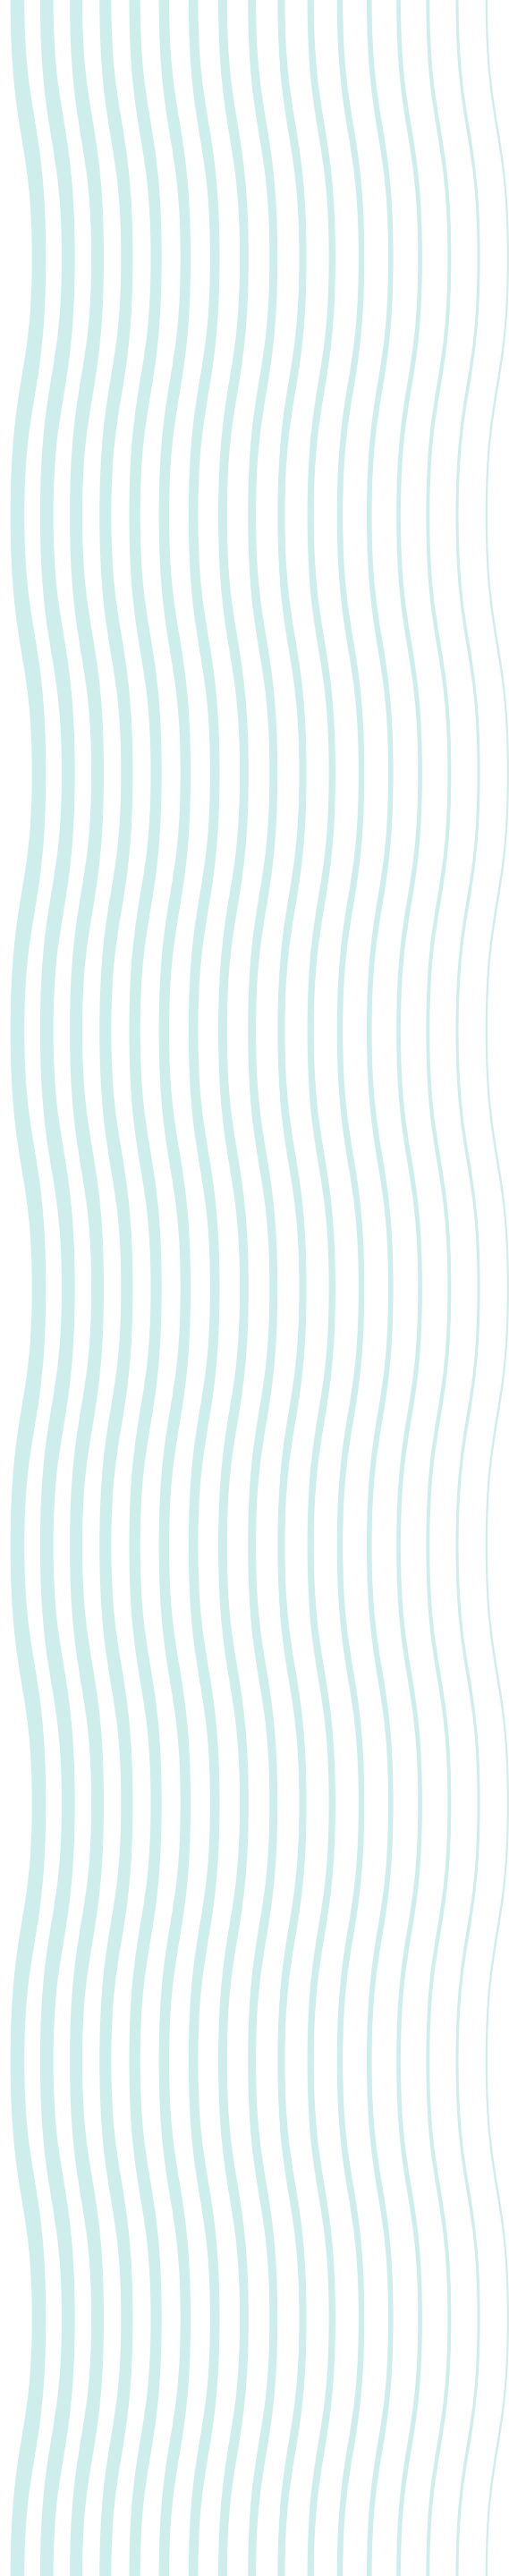

Polyunsaturated Fatty Acids

- DHA

- 25 vitamins
- 23 ultra- and microelements
- 8 macroelements
- 9 essential amino acids
- 12 unsaturated fatty acids, including “Omega-3”
- 8 saturated fatty acids

- alginic acid
- L-fructose

- EPA

Laminaria benefits

- It cleanses the body, removes toxins
- It boosts the immunity
- It protects the heart and blood vessels, prevents atherosclerosis
- It helps to recover from strokes and heart attacks
- It fills iodine deficiency, normalizes the thyroid gland functioning
- It reduces in blood sugar
- It promotes digestion
- It fights aging, preserving youth and beauty
- It helps to lose weight
- It preserves and strengthens female and male health

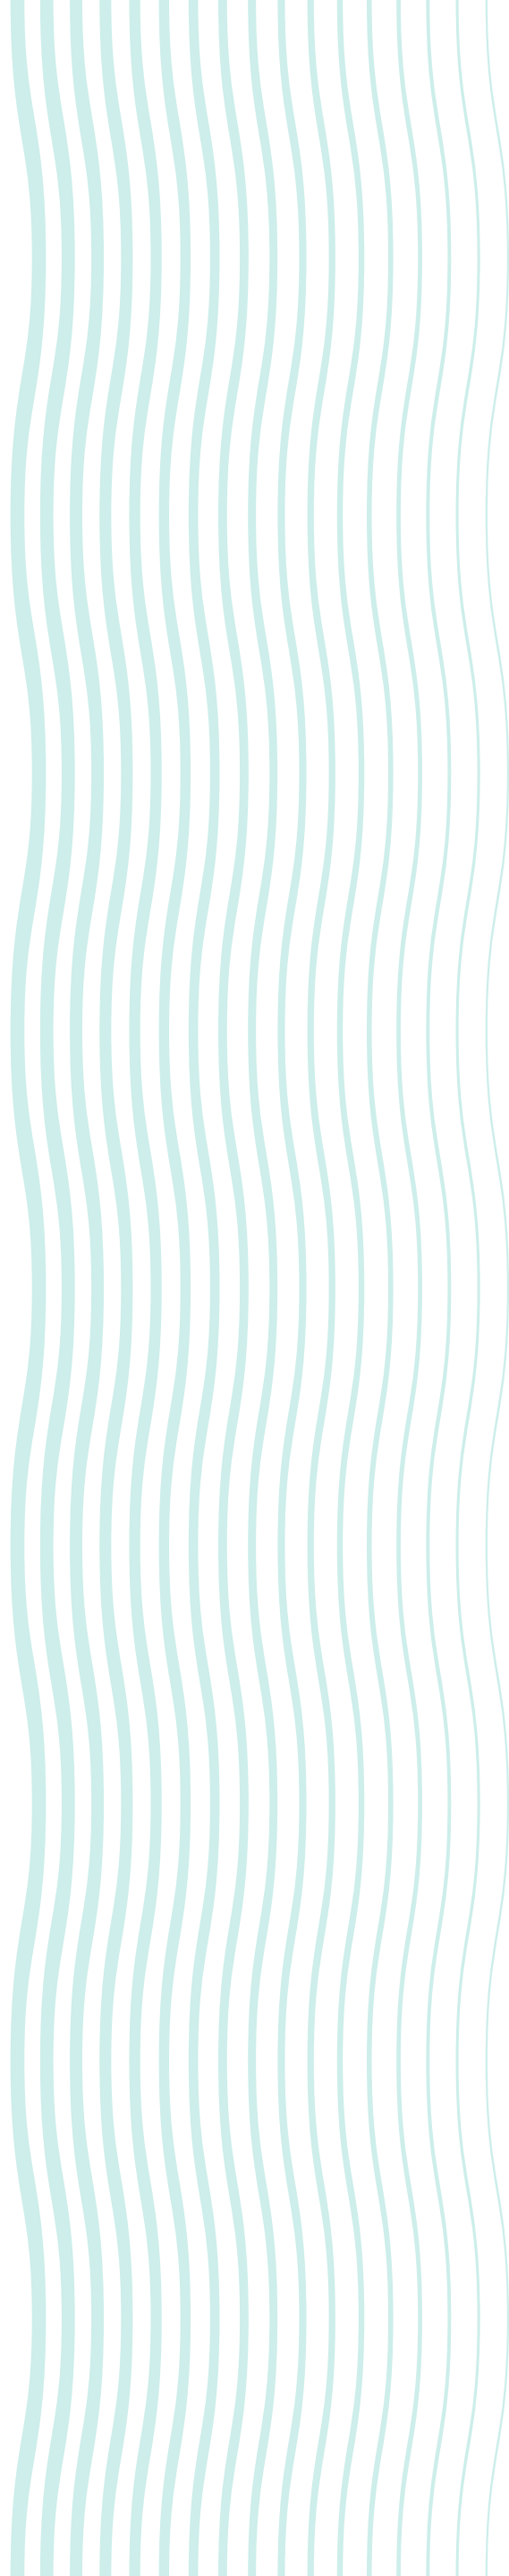

Fucus

It is algae rich in fucoidan – a polysaccharide. Its high content contributes to an increase in resistive power to diabetes, cataracts, heart attacks, strokes and oncology.

- Vitamin A, B, D, C, E, PP complexes
- Alginic acid and its salts
- High fucoidan content – 14% of dry weight
- A complex of vitamins and minerals that plants on land do not have

Fucus benefits

- It promotes the activity of stem cells of the body responsible for regeneration processes
- It regulates carbohydrate metabolism and insulin resistance
- It provides all the necessary vitamins and microelements
- It protects the heart muscle
- It strengthens the vascular wall of the brain
- It has antitumor properties

Dihydroquercetin

It is bioflavonoid and antioxidant with a unique molecular structure. It produces a powerful synergistic effect in combination with the laminaria and fucus properties.

- 100% natural – it is secreted from the bark of Daurian larch.
- Antioxidant activity is dozens of times higher than that one of B, C vitamins, beta-carotene and tocopherol tenfold.

Dihydroquercetin benefits

- It is a natural immunomodulator
- It normalizes the metabolism
- It cleanses the body
- It protects the cell membranes from breakdown
- It relieves inflammation in the vascular wall
- It reduces the level of cholesterol and the risk of cardiovascular diseases development
- It decreases the formation of carcinogens

VERTERA

Vertera Gel Forte is an absorption of all nutrients

We extract all the useful content of the seaweed cells in gel form using advanced technologies.

8-15% of useful substances are absorbed due to its indigestible cell cover

> 90% of the useful content of laminaria cells is absorbed due to the gel form

10 reasons to include Vertera Gel in your diet

1. Immune system reinforcement
2. Need for a comprehensive detox program
3. Retardation of aging
4. Regeneration and rejuvenation of the body in general
5. Antioxidant defence of the cells
6. Manifestations of iodine deficiency
7. Lack of the nutrients, micro-, macro- and ultraelements
8. High cholesterol
9. Prevention of atherosclerosis and formation of blood clots
10. Protection of the heart and blood vessels
11. Compliance with the principles of a healthy diet and lifestyle

Vertera Gel Forte with fruit flavors provides even more benefit!

They are enriched with natural bioregulators and adaptogens – plant extracts that summon the vitality of the body.

Natural adaptogens which are in Vertera Gel Forte content

Plant extracts that summon the vitality of the body

- A rosehip extract is a source of almost all known vitamins and minerals.
- Sea pectin. It is able to bind and remove salts of heavy metals from the body.
- Echinacea extracts are powerful immunostimulants.
- Licorice extract, which has anti-allergenic, anti-inflammatory and enveloping effects
- White cabbage is a source of essential amino acids.
- Eleutherococcus extract. It tones our body and helps us to cope with stress.
- Extracts of chamomile, calendula and comarum, known for their anti-inflammatory properties.
